Les Résidences Soleil Manoir Laval

Dear residents,

Waste management

Starting this week, we will pass Monday, Wednesday and Friday evening to safely collect your garbage. Please take out your garbage bag by 6:00 p.m.

In order to keep our corridors safe when our employees pass through, we ask you not to take out your bags before this time. We remind you that for the moment you must not leave your apartment to drop off your garbage at the waste chute, we must ensure a disinfection protocol.

Support project for the elderly of the population

As you know, we announced our involvement in order to support the transport of the elders of the population without means of transport to their place of vaccination in the community. Considering that the CISSS de Laval has postponed your vaccination, we would like to express a few words to you on this subject.

Note that the idea came to us when already 13 of our 15 establishments were fully vaccinated and the other 2, including yours, were confirmed and finely prepared. At the time, the government and community organizations mentioned that they had no solution to help seniors who did not live in residence. So we said to ourselves that we could help and put our buses and drivers to work, all paid for by the Savoie Family. We hope that you will all continue to be proud to participate in this mutual aid movement, by lending your minibuses to seniors who have no entourage or resources in order to travel safely to the vaccination center.

In the meantime, rest assured that we are continuing our constant efforts to convince the CISSS to deliver your vaccines to us quickly.

Massive screening

As a reminder, don't forget that a 2nd massive screening will take place tomorrow (Monday) and Tuesday. Yesterday's memo told you which floors were affected by day. The team will start after 8:00 AM.

As always, if you have any comments, concerns or suggestions allowing us to safely improve this period of isolation, and to get through the outbreak more easily, we encourage you to write to us at: info@residencessoleil.ca

We also remind you that for any emergencies or questions, you can communicate with us via your intercom 24 hours a day.

All your employees join us in thanking you for making their jobs easier and for complying with the outbreak measures.

We do everything to protect you, because your health and safety are our top priorities. ♥
