Les Résidences Soleil Manoir Laval

Dear residents,

Good news! 33 residents are now officially cured. 58 residents test positive at the residence, but they are mostly symptom-free and are doing well. 5 residents are currently hospitalized, and we hear from them regularly.

Since our beautiful residence made the headlines recently, we take this opportunity to reassure you. As you know, what is said in the media is not always true ... Your reliable source of information remains our press releases, our website and your residence team. Between our communications, do not hesitate to come and inquire at the source if you have any questions.

### **Start of vaccination**

Last Friday, 8 floors out of 25 were successfully vaccinated. We are maintaining our pressure on the CISSS to quickly continue the vaccination.

### **Massive screening**

Another massive screening takes place in order to continue the vaccination.

**Monday March 15** for the floors: **7th, 8th, 10th, 16th, 17th, 18th, 22nd and 24th.**

**Tuesday March 16** for the floors: **3rd, 9th, 19th, 20th, 21st and 23rd.**

### **Delivery option**
