

Thursday 11 March 2021

Les Résidences Soleil Manoir Laval

Dear residents,

### **Start of vaccination**

Good news, our efforts have paid off! The vaccination will begin tomorrow morning (Friday March 12).

The floors planned for tomorrow are: 4th, 5th, 6th, 11th, 12th, 14th, 15th and 25th.

The team will start after **8:00 AM**. Residents who have not had COVID-19 in the past month will be vaccinated.

Please provide:

- wear a short-sleeved sweater
- your health insurance card
- mask required, eye protection recommended
- a chair to sit on during the vaccination

When it is your turn, we will knock on your door and help you place your chair in the hallway near your door. Please don't go out early.

### **Massive screening**

Also tomorrow (Friday), the other floors will carry out a third massive screening in order to be able to plan the continuation of the vaccination.

Here are the floors that will be screened tomorrow: **2nd, 3rd, 7th, 8th, 9th, 10th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd and 24th.**

### **Convenience store**

The contactless delivery days of the residence's convenience store will for the moment be: **Monday, Wednesday and Friday.**

## Update

Already a resident is officially cured according to Public Health. About 40 more will probably be in three days. Currently, a total of 71 out of 815 residents are positive and mostly asymptomatic. Two massive screenings were carried out recently, on all residents and employees, which gives us an absolute picture of the situation.

Security guards have been added to our staff to monitor at all times. A CISSS home nursing team has been added to our team to dedicate staff to positive residents. Thus, we are able to maintain our care and services. Currently, 10 residents are hospitalized and we hear from them regularly.

The overall picture therefore shows that 9% of our residents are currently positive. Note that the proportion of asymptomatic cases in the community, outside the residence, is approximately 15% to 30% according to the most recent studies \*.
