Evolving care and services

Immediate assistance at no cost

A medical clinic and care staff are on site and available 24 hours a day to respond to any emergency, free of charge. Immediate access to the care you need gives you and your loved ones peace of mind,

At Les Résidence Soleil, it's your choice!

With a list of over 75 personal care and services to choose from, you can select regular services that are charged monthly with your rent, or periodic services that you pay as you go. You can also choose to receive care at the on-site clinic or in the comfort of your apartment. Our services are available “à la carte” so that you can choose and pay for only the services you need.

Only pay for what you need

Because your need for care can change, evolve and fluctuate over time, it's nice to know that care is available when you need it. We offer the flexibility to meet your changing needs so that you can maintain your autonomy for as long as possible. We function with a list of “à la carte” services, rather than hours of care, so you only pay for what you need, when you need it.

“À la carte” personal care services at affordable prices

Here are some examples of our “à la carte” services:

- Medication, from \$2,89
- Insulin or glycemia, from \$3,94
- Surveillance via intercom, from \$2,05
- Support socks, from \$4,31
- Dressing assistance, from \$7,86
- Personal hygiene assistance, from \$11,66
- Therapeutic bath, from \$24,94
- Personal assistance service, from \$8,40
- Assistance with meals at apartment, from \$3,94
- Follow-up and control of medical file, from \$24,68
- And much more!

Prices are subject to change without notice.

The complete list of “à la carte” personal care and services is available upon request and on our website at residencessoleil.ca. In addition to the “à la carte” services, packages are also available upon request in several of our residences. Inquire by contacting us: 1 800 363-0663.

Care and services available

Offered at the resident's choice

You decide... We do not assess the resident's dependency. The resident chooses to subscribe to the care and/or services that meet his needs according to the state of his health. It's his choice!
