Residents committees, living and leisure environment

Each year, a general meeting is held to elect a committee of volunteer residents. At Les Résidence Soleil, it's your choice!

With a list of over 75 personal care and services to choose from, you can select regular services that are charged monthly with your rent, or periodic services that you pay as you go. You can also choose to receive your care directly in the care department of the residence or in the comfort of your apartment. Our services are available “à la carte” so that you can choose and pay for only the services you need.

Only pay for what you need

Because your need for care can change, evolve and fluctuate over time, it's nice to know that care is available when you need it. We offer the flexibility to meet your changing needs so that you can maintain your autonomy for as long as possible. We function with a list of “à la carte” services, rather than hours of care, so you only pay for what you need, when you need it.

The complete list of “à la carte” personal care and services is available upon request and on our website at residencessoleil.ca. In addition to the “à la carte” services, packages are also available upon request in several of our residences. Inquire by contacting us: 1 800 363-0663.

A family history

It started with a son's love for his parents

Les Résidences Soleil was founded out of love more than 35 years ago to meet the growing needs of Eddy Savoie's parents while maintaining their quality of life. At the time, they lived with him, his wife, Carmelle, and their five children. When his father's life began to slowly decline, he began looking for a home with the services his parents needed. Despite his search and the beautiful locations he found, none of them offered all the services he expected. He could not imagine moving his parents to a home where their quality of life would diminish. Being in the construction business for 25 years at that time, he and his family decided to build it themselves! The residence was to offer all the essentials: an attendant 24/7, healthy and delicious meals, a wide variety of activities, an indoor pool and spa, a medical clinic, and indoor parking, all close to essential services!

The first residence quickly led to a second and today, 14 residences are in full operation, with several more on the way. Our service offering has continued to evolve over the years to ensure the best for our residents. Being committed to the well-being of our residents and employees, we are proud to provide a family environment and sense of community in our residences. Our goal is always to provide a comfortable, safe and fulfilling retirement for all seniors at affordable prices, even with limited finances or without a private pension. Here, seniors do not come to die, they come to relive their beautiful years to come with pleasure !

The Groupe Savoie develops, designs, builds, operates, manages, finances and owns all of its residences alone. It employs more than 2,000 workers, including four generations of the Savoie family, three of which are involved in the daily lives of our thousands of residents.
